

## **NATIVE AMERICAN WATER ASSOCIATION: BRINGING CUSTOMIZED TRAINING WORKSHOPS TO YOU!**

NAWA strives to provide quality training and technical assistance to all tribal water and wastewater utilities in Indian Country. We understand the challenges and costs associated with sending your employees to various trainings and classes.

With the help of tribal utility management and staff, NAWA has identified the common problems that affect the training and technical assistance your employees receive and we would like the opportunity to help you solve them.

- ✓ You or your staff need quality training and technical assistance, but can't find the perfect training to fit the needs of your organization.
- ✓ Your employees have little to no background knowledge and there are limited training opportunities in your area.
- ✓ There is limited funding available and budgeted for training and travel for all of your employees.

The benefits of a customized, on-site training workshop from NAWA are:

- There will be no travel, lodging, per diem or overtime expenses for your organization
- Training workshops are completely customized to meet the needs of your utility
- Training available for one employee or a large group- you determine class size
- Upon request, NAWA can provide CEUs
- NAWA will maintain your employee training files
- Complete pricing on training workshop is known in advance.
