Native American Water Association – Meeting Guidelines

Tradeshows, Conferences, Conventions, Professional Seminars & Similar Gathering Activities

A gathering such as a conference, convention, trade show, professional seminar, or similar gathering activity may take place in a venue in accordance with the capacity limit of 50 percent or 250 individuals, whichever is less, if all the guidance is followed. A host or venue may hold a conference, convention, trade show, professional seminar or similar gathering activity for more than 250 individuals, **but no more than 1,000 individuals**, if they can meet the following requirements:

- The venue has the ability to **separate the gathering's individuals into separate rooms that hold no more than 250 individuals or 50 percent capacity, whichever is less.**
- Venue employees and staff **MUST** be restricted to working in one individual area during the entirety of a convention, conference, trade show, professional seminar, or similar gathering activity.
- Each individual area must include floor to ceiling walls.
- Each individual area should **maintain separate entrances and exits to avoid spaces being shared.** If separate entrances and exits cannot be achieved for each individual area, a venue **MUST** stagger the entrance and exit times for individuals to avoid congregation, congestion, or bottleneaking that does not **allow for proper social distancing.**
- All individuals must be pre-registered. Consider using “color-coding” or another identifier for each group in the convention to help ensure individuals do not comingle outside of their groups.
- **Shared use of restroom facilities should be minimized** to avoid use by individuals in other groups. See “Restroom Facilities” guidance below.
- Shared use of concessions, merchandizing, amenities and similar merchants should be minimized to avoid use by individuals in other groups. See “Food, Beverage & Concessions” guidance. And confirmation that the plan meets the local public health standards.
